Number 40

THE Sport Spot

The R.H.S. 'A', 'B' and Girls teams packed themselves and all their supporters into Stones Transport last Friday night and journeyed to Lethbridge to win two out of the 3 games scheduled. The B team were in take-off position and really took the L.C.I.B team to the tune of 28-9. Score at half time was 22-4 so it can easily be seen it was no trouble at all.

In the second game the Girls ran into plenty of opposition right from the start. The Lethbridge girls took the lead from the first whistle and kept it all the way through. Tall, blonde captain Ramona Heggie found herself unable to wind up and get going at the same pace she effected with Cardston and in spite of fine support the half time score was 11-7 for Lethbridge. The final score showed little difference, the tough Lethbridge girls ending up on top of a 23-15 score.

The balance tipped back again to favor the R.H.S. in the third game which saw the A team whip the L.C.I. 48-26. Little Pete Witbeck with an extra eye in his good left hand led the scoring race with 14 points.

The L.C.I. quintet played a fast game for two minutes but soon were lost in the action they had started.

The L.C.I. were hosts at a dinner and dance after the game, but the bus out the Raymond participants short early in the proceedings. The next roster will feature R.H.S. A and Girls teams vs. Magrath and the B squad vs. Lethbridge.

LIONS vs. JACKS

Tuesday last saw one of the most exciting games of the season played in Magrath. Mounting up totals of 51 fouls and 100 points, the Jacks and Lions played their third league game of the current series before a capacity crowd of rabid fans. The score saw-sawed back and forth. At one time Raymond was 11 points up and then Magrath took a 10 point lead.

The Jacks amassed a lead in score in both fouls and points before the final whistle blew, the game ending 52-48 for Raymond, and the fouls being counted at 27 for Raymond and 24 against Magrath. Turner, Michelson and Hicken left the floor during the game for doing more than their share of damage and of the Magrath team, D. Sabey, Coleman and Rice were the early show-men.

Magrath now finds themselves in a very unenviable position, having to win both of the games yet to be played against the Jacks. It could be done.

JACKS vs. MAPLE LEAFS

In a fast but fairly uninteresting fixture in Cardston last Saturday the Jacks rmped home with an easy 61-49 win. The local boys were fairly hard pressed in the early stages of the game but in the pattern that

has become familiar lately, boosted their power up a few pounds and shot their way into the pay-off spot before the final whistle.

Don McKay Visits Raymond

Don McKay, Alberta President of The Junior Chamber of Commerce was guest speaker at a meeting held January 30 in the Town Hall, for the purpose of acquainting the community with Junior Chamber work. Despite the cold weather a fair turnout showed up, with members of the Lethbridge Chamber in attendance.

S.J. Weaver was nominated chairman of the meeting with Jerome Platt as secretary. Ron Roberts of Lethbridge, Vice President of the Alberta division, introduced the guest Mr. McKay who gave a very interesting account of the activities of the Junior Chamber work in the Province and in the Dominion.

Harold McLaughlin, president of the Lethbridge Chamber introduced members of the Lethbridge group who gave short outlines of the various committees with which they were associated in the Lethbridge Chamber.

Time was given over to a question period and those present had the opportunity to satisfy themselves as to the operation of Junior Chamber. A motion was passed to have S.J. Weaver and Jerome Platt remain as Chairman and Secretary respectively of an organizing committee to get a Junior Chamber under way in Raymond.

Another meeting is planned in the near future to further acquaint the community with J.C. work and it is planned to have both Lethbridge and Cardston Chambers represented at the meeting.

Vanity Beauty Shop Changes Hands

Feminine readers will be interested in the recent change in the management of the Vanity Beauty Salon. Mrs. J. Harrie Walker has taken over the supervision of the shop from Mrs. Gladys Layne, who has operated the shop for the past nineteen months. The staff will remain substantially the same we have been informed.

Local Happenings

Reported by Elsie Mitchell

Dallas Liddle and Gary Christian left Monday for Great Falls to join the Army Air Corps.

Mrs. John H. Blackmore of Cardston visited in Raymond last week with her mother Mrs. Anna Woolley.

Mr. and Mrs. Kenneth Shaw spent a few days visiting in Cardston last week.

Mrs. J.D. Ridge entertained Monday evening in honor of her sister who is leaving soon to a mission in England for the L.D.S. Church.

Miss Theodora Redd was guest of honor at several affairs this week prior to her marriage. Miss Olive Brindley entertained in her honor Friday night when relatives and close friends enjoyed a pleasant evening. Mr. and Mrs. Clarke Chidwell of Calgary were among the out of town guests.

Thursday evening Mrs. Norma Wood entertained for Miss Redd.

Mrs. Ruth Tollestrup of Lethbridge entertained at her home Wednesday in honor of the birthday of her sister-in-law Mrs. Opal Wiggill. A very pleasant afternoon and evening was spent. Honors for Court whist went to Mrs. Martha Taylor, and Mrs. Arleen Brown. Raymond guests included besides the honored guest Mesdames Martha Taylor, Eulalia Nalder, Ethel Tollestrup, Lavina Dahl, Una Poulson, Arleen Brown, Mae, Tollestrup, Elsie Mitchell, and Verland Leavitt and Mrs. Treasa Neilson of Taber, and Laveda Hague.

Mrs. Blanche Seville of Calgary was a Raymond visitor last week.

The Athenaeum Club held the second meeting of the year Monday evening at the Library. President Opal Wiggill was in the chair and gave the meaning of the Club's name, also the aim. The original meaning of "Athenaeum" was an institution for the encouragement of the fine arts. The aim as heretofore is individual study which leads to group improvement.

Canada was studied under the following headings: Industries, which was given by Mrs. Kay O'Connell; Political Leaders which were treated by Mrs. Geneva Larson; A Treatise on Canadian Authors was given by Mrs. Della Woolf; Two Indian Legends were given by Mrs. Irene Holladay, while Mrs. Opal Wiggill dealt with the music and musical aspirations of Canadians.

The engagement is announced of Mary, second daughter of Mr. and Mrs. Wilford A. Herlinger and Louis S., only son of Mrs. John Housley and the late Clarence Schurners. The wedding will take place February 12 at the Alberta Temple.

Six Councilmen and Three School Trustees Nominated

Nominations were received by returning officer George H. Court last Monday February 4th, for the position of two councilmen for the town of Raymond and for the position of two school board members.

For the position of Town Council the nominations were received to fill the seats left vacant by retiring councilmen Pack and Fairbanks. Nominations are: Archie Terry, Renan Pack, Shirley W. King, E. Wagstaffe, J. E. Harker and Harry Fairbanks.

For the position of two School Board members three nominations were received being: T. W. Meldrum, Ian McBride, and S. J. Weaver. Retiring members of the School Board are Meldrum and McBride.

The position of Mayor was not contested and Wm. Jensen was re-elected by acclamation.

The town will go to the polls next Monday, February 10 from 10 a.m. to 7 p.m.

Mrs. S. B. Card and Mrs. Owen King are visiting friends in Seattle after spending some time in Vancouver.

Miss Iris Jones is leaving Tuesday for a ten day holiday in Utah after which she will return to her studies at the school of Agriculture at Olds.

Mrs. Fern Laycock of Lethbridge spent the week end here visiting relatives.

Mr. and Mrs. Henry Piegrass were hosts Saturday night at a supper for sixteen guests. Rock was played during the evening, honors going to Mrs. Zella Woolley and Archie Terry and consolation to Mrs. Muriel Terry and Clifford Gough.

The Second Ward M. Men and Gleaners enjoyed fireside at the home of Mrs. Emma Dahl Sunday evening. Mrs. Della Woolf gave a very interesting review of the book "Unknown Country", a story of Canada by Bruce Hutchinson.

The three groups of Bee Hive Girls of the Raymond Second Ward entertained their mothers at a banquet and play held in the Recreation Hall last week. The event was under the direction of the Bee Hive supervisors Florelle Palmer, Laree Dahl, and Annie Larson.

Mrs. Rayo Woolf entertained Wednesday evening at a dinner party when guests enjoyed a pleasant evening.

Mr. and Mrs. Lee Brewerton left Monday for Calgary where they will visit for some time.

Mrs. T. George Wood and Mrs. F. R. Taylor are visiting in Utah. They accompanied Mr. Taylor and Mr. Bennion to Salt Lake City.

Mr. and Mrs. Harold Evenson of Brooks are visiting Mrs. Evenson's Parents Mr. and Mrs. T.W. Meldrum.

BORN to Mr. and Mrs. Ken Hudson nee Ruth Reithman, at the Galt Hospital, Lethbridge, February 2, a daughter Susan Ann.

BORN to Mr. and Mrs. William Malder, nee Ruth Bingham of Magrath, Monday February 3, a son.

BORN to Mr. and Mrs. Gerald Melchior, nee Evelyn Knowles of Ogden, Tuesday February 4, a son.

BORN to Mr. and Mrs. Ted Witbeck, a son.

Mrs. Elsie Jaque and daughter Bernice left this week for a visit to Utah.

VETS - HUTTERITES

Wedding Bells Stevenson - Redd

A pretty wedding took place Saturday February 1st, at 5:30 p.m. at the home of Paul H. Redd when his second daughter Theodora became the bride of Ted Stevenson, son of Mrs. Stevenson of Calgary. The bride, lovely in her long white sheer gown and three quarter veil was unattended. Bishop J. O. Hicken performed the ceremony in the presence of relatives and close friends. Mr. Clarke Chidwell of Calgary supported the groom. Mrs. Redd wore a black gown for the occasion with roses and gardenia corsage.

The young couple left later for Calgary where they will make their home, the bride travelling in blue gabardine suit pink blouse and accessories.

Out of town guests at the wedding included Mr. and Mrs. Junior Fairbanks of Calgary, Mrs. Hazel Gibb, Cardston; Mrs. Maureen Wood Edmonton; Mrs. Fern Laycock, and Mr. and Mrs. Noel Brandley of Lethbridge. From Stirling, Mr. and Mrs. W. Brandley, Mr. and Mrs. A. Brandley, Mr. and Mrs. E. Nelson, Mr. and Mrs. Joe Proctor and Mrs. Heber Perrett.

Raymond Girl In Social Activities, B.Y.U.

PROVO, Utah — Miss Margaret Wing of Raymond has been selected as a committee member for the affair which heads the social activities of the year, the Junior Prom at Brigham Young University. The annual affair will be held March 7 and 8 in the ballroom of the Joseph Smith building.

Miss Wing is the daughter of Mr. and Mrs. C.R. Wing of Raymond. She is a graduate of the Raymond High School where she served as secretary of the school dramatics. She formerly attended the University of Utah, where she was a member of the Spurs. At Brigham Young University she is a junior enrolled in the college of education majoring in that field.

Mr. and Mrs. Arthur Melchin of Winnipeg are spending some time visiting with their sons Howard and Gerald and their families.

Lyle Piegrass purchased a new Jeep from Graham Motors this week. Lyle drove Jeeps overseas and says they are the real thing.

Sunday afternoon, February 2, 1947 a meeting was held in Lethbridge Legion Hall concerning the Hutterite land purchasing problem. Those in attendance from Raymond were Dr. Newlove, Ron Watson, Mel Depew, Ron Dahl, Herbert Wilde, and Niels Peterson.

This meeting was sponsored by the local branch of the Canadian Legion and invitations were sent out to nearly all the towns in the southern part of the province.

Under the chairmanship of Mr. Depew the proceedings were soon under way. Mr. Dahl presented a summary of the events leading up to the present issue.

Speaking on behalf of the Lethbridge branch of the Legion Mr. Huckvale made it very clear to all present that although they had granted the use of their hall they would have no part whatever in depriving Hutterites, as Canadian Citizens, of their right to expand. Mr. Huckvale also stated that it was his opinion that the Hutterites were being persecuted from a religious standpoint.

Magistrate Arthur Beaumont K.C. supported Mr. Huckvale and made it quite clear that the Canadian Legion, as a provincial and Dominion set-up, would not take part in any such affair.

Mr. Williams, of the Taber Legion, Mr. Marshall of the New Dayton Legion, Mr. Sheridan of the Magrath Legion took their turns informing Mr. Beaumont that they would do everything possible to enforce the resolution proposed by the Raymond Branch at their meeting on January 29, 1947. A copy of the resolution appeared in this paper (last week) Mr. Parry and Mr. Boyce of Lethbridge, Dr. Newlove, Mr. Peterson and Mr. Watson of Raymond and Mr. Avery of Taber expressed themselves as being 100 per cent behind the resolution also.

After three hours of heated discussion the purpose of the meeting had been accomplished and a committee was formed to draft a brief to be presented to the commission headed by Ivan Casey, M.L.A. of High River. Members of this committee are Mr. Williams, Taber, Chairman, Mr. Depew, Secretary Mr. Sheridan, Mr. Dahl, Mr. Marshall, Mr. Peterson, Mr. Avery, Mr. Parry, Mr. Boyce, with authority to add to their numbers.

Some people look good but are not happy. Some look happy but are not good.

Melchin Motors have installed a new Kerrick Kleaner to wash motors and cars with steam. It is installed and operating now.

Notice of Poll Town of Raymond Municipal Election 1947

PUBLIC NOTICE is hereby given that an election will be held for the offices of TWO COUNCILLORS of the TOWN OF RAYMOND for the years 1947, 1948 and 1949, and for the offices of TWO SCHOOL TRUSTEES for the years 1947 and 1948, and that the polling will take place on the 10th, DAY of FEBRUARY, 1947, from 10 o'clock in the forenoon to 7 o'clock in the afternoon at the TOWN HALL, RAYMOND, ALBERTA; and that I will at RAYMOND on the 11th, day of FEBRUARY 1947, at 10 o'clock in the forenoon, sum up the votes and declare the results of the election.

Given under my hand at RAYMOND, this 5th day of Feb., 1947

GEORGE H. COURT,
Returning Officer

RENN'S SUGAR BOWL MODERNIZED

Photo by Fromm

Lethbridge Herald Engraving

Every one is interested in eating. This being so, everyone should be interested in the recent startling renovations that have been brought in to being in Renn's Sugar Bowl, (shown above). Renn had to partially rebuild his bar because of a small fire some time ago, so he went ahead to really modernize. Some of the innovations include counter boxes for the Wurlitzer, a horseshoe bar, chrome and leather chairs, and Renn assures us that he is not finished yet.

WORLD HAPPENINGS

BRIEFLY TOLD

Hon. Frances Mary Drummond, 99, for 30 years maid of honor to Queen Victoria, died recently in London.

One thousand tons of Swedish telegraph poles have arrived in Port Talbot, Wales, the first since 1939.

Russia intends to build ships of a size to compete with those employed in the world's luxury liner trade, Moscow radio said.

The Duke of Gloucester, brother of the King, has returned to Britain after serving two years as governor-general of Australia.

Ernest Svedborg resigned as treasurer of a Sunday school at Galesburg, Ill., after maintaining a perfect attendance record for 38 years.

It was announced officially that more than 1,000,000 Poles had returned to their homeland in 1946 and that 1,635,627 Germans had been expelled.

Sports pavilions are to be built on the playing fields of Suffolk, England, to commemorate the men of the Suffolk Regiment who died in the Second World War.

Clyro Court, at Clyro, Radnorshire, Wales, once home of the Baskerville family, principal landowners, has been taken over for conversion into a technical school.

At Llandrindod Wells, Wales, Charles Jones, 82, who had a wooden bicycle when he was six years old and still rides a bike, claims to have been a cyclist longer than anyone in the world.

ALSIKE CLOVER

Production of alsike clover seed in Canada in 1946 was 7,712,000 pounds, 2,650,000 less than in 1945, and was not enough to meet both domestic and export demands. Canada is the chief exporting country of alsike clover seed this season, when world requirements exceed supply by a considerable margin. The potential export demand for this seed would appear to justify increased production in 1947.

To Feel Right — Eat Right!

Relieves Child's Cold As He Sleeps

Penetrates deep into bronchial tubes with special soothing medicinal vapors.

Stimulates chest and back surfaces like a warming, comforting poultice.

This effective special penetrating-stimulating action works for hours during the night to relieve distress of colds while your little one sleeps. Results are so good often by morning most misery of the cold is relieved. Try it tonight!

Elderly Couple Honored For Rescuing Five From Drowning

PITTSBURGH.—A Canadian man and his wife, who saved five persons from drowning in the stormy waters of Prince Rupert Bay in November, 1945, were honored by the Carnegie Hero Foundation.

Frederick M. Joyce who never before had piloted his cabin-cruiser, rescued two boys and three men who were clinging to a capsized rowboat a thousand feet from shore.

The 70-year-old Joyce was guided through the darkness by his wife, Alma Romalda Joyce, 62, who directed the course with a flashlight.

With great difficulty Joyce maneuvered the craft on the storm-tossed bay until he reached the rowboat. Mrs. Joyce tossed a line to one of the men.

The Joyces trod carefully along a narrow catwalk to rescue Derek G. Mason, 10, whom they seized by the clothing. The hazardous process was repeated four times to make the rescue complete.

The Joyces, who live at 875 Kingsway, Vancouver, B.C., were presented with bronze medals by the Commission.

The term "welterweight" is used in horse racing, as well as in boxing, being a weight of 28 pounds sometimes imposed for handicap.

One Youngster Who Has No Illusions

It was one of those cold, frosty days. Mrs. C. M. Howard, kindergarten teacher, in Omaha, Neb., tried to be enthusiastic.

"Now we are all going to the windows," she told the class, "and see what Jack Frost did last night—how he painted all the shrubs, trees, bushes and blades of grass."

"Mrs. Howard", interrupted John Hopfinger, aged five.

"Yes?"

"Mrs. Howard, that's all caused by the warm air currents coming in contact with the cold currents. Then the moisture condenses and leaves those ice crystals on the bushes. There ain't no Jack Frost."

Whale Loses Battle With Sea Vultures

MANTEO, N.C.—Coast guardsmen who rushed through fog and rough seas to the rescue of what was first reported to be an "overturned ship with survivors clinging to it" were given ringside seats to a losing battle by a monster whale against a flock of sea vultures.

The whale, described by coast guardsmen as the largest ever sighted off this section's shores, was wallowing in shallow water, helpless to defend itself against the flesh-ripping beaks of the huge birds.

The black swallower fish can swallow fish two or three times its own size.

SNAPS and SCRAPS

Among the new books this week is one from the pen of Elizabeth Selfert "Dusty Spring". Elizabeth Selfert author of the ten thousand dollar prize winning novel "Young Doctor Galahad" was born in Wash- ington, Missouri, her ambition was to study medicine but because of poor health and family disapproval she gave it up and worked as a

chemical secretary in a hospital. Her novels are largely based on her observations during the ten years she worked among doctors and nurses. In private life she is Mrs. John Garparotti, mother of four children. She says of herself: "I have always wanted to write but raising four children with the accompanying dis-

traction of tonsils, teeth-hands etc., and caring for a seven roomed house did not leave me much time or strength for it until recently now the children are older."

Books in our Library by Elizabeth Selfert are:
Young Doctor Galahad, Surgeon In Charge, A Certain Doctor French, Dusty Spring.

Mrs. Selfert has two sisters, Shirley and Adele, both writers. All three writers are very popular at our Library.

Everyone is talking of the winter and cold, few there are who like it. Cold weather has been in the past and will be again in the future. It was a winter such as this, if not colder, that gave us the fame of the late William Russell; but let us look at the story of his first painting "Waiting for the Chinook" or "The Last of the Five Thousand".

It was during the winter of 1886-87, William Russell was in the employ of Stradler and Kautman, large cattlemen of North Montana. The winter was long and cold and at that time hay and grain was not to be found in feed lots. Cattle were pretty much on the open range. Towards early spring a severe storm with much snow and wind lasted for some days. Cattle died by the hundreds.

Stradler and Kautman were very much alarmed as to how their herd was standing the long winter, they wrote Russell, William Russell having spent very little time in a school room found letter writing hard, but he did like to draw and paint and to him the task would be much easier

if done by paint; so his reply by return mail came in the form of a picture. The picture was of a cow standing in a snow-drift with her back towards the wind, while moving in closer and closer was a band of coyotes waiting for the cow to fall.

This picture later sold for as much as a herd of cattle, ten thousand dollars. It is the best known of all Russell's work, the first of many frontier and range pictures. From an historical standpoint his paintings are of priceless value and today they hang in the great art galleries of London, Chicago, Washington New York and Los Angeles. Some of them he sold for five dollars and were painted for order. He lived to see these same pictures resell for many thousands of dollars, but of this Russell himself says:

"The newspapers and the world has been kind to me, many times more kind than true. I was never a very good cowboy because I was never a very good roper, I was a better night wrangler. I have lived to play and laugh and this has saved me many a black eye and made me many friends. I had friends when I had nothing else and I hope to have them until I die. My friends are mixed, preachers, priests and sinners. I married my wife Nancy Cooper in the fall of '96 at Cascade

An invitation to all writers to enter the Harper Prize Novel Contest took me for better or worse, and I will leave it to her which she got."

Charles M. (Charlie) Russell lived most of his life in Great Falls, Montana.

est for the year 1947 is now open. Previous awards have been:
The Able McLaughlins by Margaret Wilson 1923 (This book took the Pulitzer award the same year)
The Perennial Bachelor by Anne Parrish, 1925
The Grandmothers by Glenway Wescott, 1927
The Dark Journey by Julian Green 1929

Farmers WILL BENEFIT

The Alberta Motor Association believes that farmers are vitally interested in the improvement of our Roads and Highways. Good roads enable farmers to market their products in the easiest and most economical manner, especially in the case of perishable products.

Improved highways are vital to the trucker if he is to deliver your products to market economically, regularly and in the best condition possible. It costs from one to eight cents a mile more to travel on mud roads than on gravel or paved highways.

Improved highways also enable the farmer to do his shopping and other business much more economically and pleasantly. They are a great boon to the farmer's wife and family.

The recently announced \$9,500,000 program of the Alberta Government for 1947, if carried out and repeated over a period of years, should have a marked influence in improving the motor transportation in all parts of the Province and be of particular benefit to all rural citizens, especially farmers.

Canada's Navy

DURING THE WAR the Royal Canadian Navy rose to a high place among the naval forces of the Allied nations, and served with distinction in many parts of the world. As was the case in all the armed services, naval personnel was recruited from every part of the Dominion, but it was frequently noted that a large percentage of those who served in the Navy came from the Prairie Provinces, and although they are situated so far from the sea, it is probable that many from the Prairies will be included in the complement of 10,000 officers and ratings who will make up the peacetime strength of Canada's Navy. A recent report issued from Naval Service headquarters at Ottawa, showed that 8,600 officers and ratings have already been taken on, and that applications for entry or re-entry are averaging more than 2,000 a month, of which about 200 are being accepted.

We Now Have A Modern Fleet

The report from Naval headquarters also drew attention to the fact that we now have a modern fleet which includes an aircraft carrier, two cruisers, destroyers, frigates and Algerine escort vessels. A second aircraft carrier will be added to the Navy at the end of 1917. Canada's first aircraft carrier is the 18,000 ton Warrior, which was commissioned at Belfast, Ireland, over a year ago. The Warrior recently completed a six weeks training cruise from Halifax to her winter base at Esquimaux, B.C., and this was but one of many training cruises which have been taken by vessels of the Royal Canadian Navy since the end of the war. These cruises not only provide training for their crews, but in some cases serve also to cement goodwill between Canada and the neighboring countries which these ships visit in the course of their voyages.

Conversion To Needs Of Peace

Reference is also made in the Naval headquarters report to the steady reconversion of various departments of the Navy to peacetime requirements, and to the inauguration of a new training program afloat and ashore. Naval bases at Halifax and Esquimaux, B.C., are being converted to meet the needs of the new training program, and in addition there are a number of inland stations with what are described as "unequaled training facilities". In all there are nineteen Naval divisions across Canada, where it is expected that 18,000 reserve personnel will receive training. These are only a few of the many interesting facts given in the annual report issued from Naval headquarters, but they outline some of the duties which occupy Canada's growing Navy in time of peace.

Financial Benefits For Unemployed Increased

Sixty thousand people in Britain will benefit from the new regulations regarding unemployment pay just published by the Minister of National Insurance. Benefits are not normally payable for more than 6 months and the Government have now decided to increase this statutory period for those who can show that they will be entitled to extended assistance owing to age, physical disability, or other special difficulties. The new regulations are actually in anticipation of provisions contained in the National Insurance Act which does not come into full operation till 1948.

Eruption of Krakatoa in the Malay Archipelago in 1883 hurled a cubic mile of rock more than 17 miles in the air.

When your BACK ACHES...

Backache is often caused by lazy kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or that "lured old" feeling may soon follow. To help keep your kidneys working properly—use DODD'S Kidney Pills. Time-tested, popular, safe, non-habit-forming. Demand Dodd's Kidney Pills, in the blue box with the red band. Sold everywhere. 135

Get Relief From Piles
This Amazingly Easy Way

Prescribed by a Professional Doctor

Think of it! An INTERNAL treatment that gives quick relief from the itching irritation and burning, painful soreness of piles. Piles are caused by internal conditions. No lasting freedom from pile misery can be had until you relieve the cause. And the cause is INTERNAL! So the best way to treat your sore, painful piles is with an internal treatment like Hemoroid.

Hemoroid is a formula that has been used for over 40 years by thousands of pile sufferers. It is a small, highly concentrated tablet which directs its medical action to the relief of the congestion that is the real cause of all piles. Hemoroid wakes up your lazy liver and gall bladder, promotes free, easy and comfortable bowel movements, relieves itching and burning and stimulates better circulation of blood in the lower bowel. Hemoroid strikes right at the cause of your pile trouble quickly and effectively.

NOTE: The sponsor of this notice is an old reliable firm doing business in Canada for over 20 years. Hemoroid must help your sore, painful piles—must do it quickly, easily and pleasantly or your own test of this remarkably successful formula costs you nothing. Try it today.

BIG DIFFERENCE IN METHOD OF PLAY

W. L. Clarke, in the Windsor Star says: Little boys in Europe play with drums and guns and they march and parade.

Little boys in Canada and the United States play with hockey sticks and baseball bats and they have spirited battles on the rinks and diamonds.

That's the difference. Over there the children are brought up to think that sooner or later they are going to have to fight a war against someone. Over here the children are brought up with the idea that life is supposed to be pleasant.

If that war idea could be driven out of the heads of the children over there, this world might have more chance of peace.

British Papers Unable To Increase Size

LONDON. — An increase in the newsprint ration to permit British newspapers to operate on a six-page basis will be impossible before July unless the supply situation changes, the trade paper Newspaper World said.

Newspaper World said Sir Stafford Cripps, president of the Board of Trade, had told a publisher's deputation that Canadian imports and estimated home production left a 57,000-ton gap between supply and consumption on a six-page basis.

No currency will be freed for further Scandinavian imports and Canadian manufacturers are not expected to be able to increase shipments, Sir Stafford said.

The trade paper said a position could arise where newspaper sales might have to be pegged again to a limit increase in sizes.

Smart New Classic

Looking for smart new details in a classic? Note these in Pattern 4713: squared-off lower armhole, deep cuffs, soft skirt pleats. Use all one fabric, or contrast!

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions. Pattern 4713 comes in sizes 12, 14, 16, 18, 20, 40. Size 16 takes 2½ yards 54-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

GEMS OF THOUGHT

SPIRITUAL JOY

The angel said unto them, Fear not for, behold, I bring you good tidings of great joy, which shall be to all people. — Luke 2:10.

What happiness is, the Bible alone shows clearly and certainly, and points out the way that leads to the attainment of it. — Coleridge.

Who that has felt the loss of human peace has not gained stronger desires for spiritual joy? The aspiration after heavenly good comes even before we discover what belongs to wisdom and Love. — Mary Baker Eddy.

Happiness and virtue rest upon each other; the best are not only the happiest, but the happiest are usually the best. — Butler.

The strength and the happiness of a man consists in finding out the way in which God is going, and going in that way, too. — Henry Ward Beecher.

Every heart that has beat strong and cheerfully has left a hopeful impulse behind it in the world, and bettered the tradition of mankind. — Stevenson.

FUNNY and OTHERWISE

The English teacher asked for a sentence using the word "beans". "We had beans for dinner," said one boy.

"My brother likes beans," added a second.

"We are all human beans," piped a third.

Adam and Eve were naming the animals of the earth when along came a rhinoceros.

"What shall we call this one?" asked Adam.

"Let's call it a 'Rhinoceros'."

"But why a rhinoceros?"

"Well, because it looks more like a rhinoceros than anything we've named yet."

The lady of the house suspected one of her sons was paying attention to the attractive maid. Anxious to find out which one, she asked the girl: "Nora, suppose you had the opportunity to go to the movies with one of my sons, which one would you choose?"

"Well," replied the girl, "it's hard to say, for I've had grand times with both of them, but for a real frolicking spree, give me the boss."

Murphy was paying 28 shillings a week board and lodging.

One day his landlady said: "Pat, I'm afraid I shall have to charge you another two shillings. You're such a big outer."

"For Heaven's sake, don't do that," said Murphy. "I'm killing myself already trying to eat 28 shillings' worth!"

A sober, sincere minister was putting everything he had into a sermon on the evils of drinking.

"And in closing," he said, "I would like to say that if I had my way, all the wine, liquor and beer would be dumped into the river."

Then after a brief pause: "We will end our service by singing 'Shall We Gather at the River.'"

Father didn't approve of a lot of things which happened these days; especially did he dislike the modern modes.

"Pah!" he snorted. "I don't know what the world's coming to. Let me tell you that your mother never dressed to catch a husband the way you girls do today."

But his daughter was ready for that one.

"No," she replied, "and look what she got!"

Mild ALL-VEGETABLE RELIEF FROM IRREGULARITY

Biscuits that "Click" with the whole family

Magic's Orange-Raisin Biscuits

2 cups sifted flour
4 teaspoons Magic Baking Powder
½ tsp. salt
2 tblsp. sugar

4 tblsp. shortening
½ cup raisins
1 tblsp. orange rind
1 egg
½ cup milk

Sift dry ingredients together. Cut in shortening until well mixed. Add raisins and orange rind. Beat egg slightly in measuring cup and add milk to make ¾ cup. Add to first mixture. Roll out about ½ inch thick; cut with floured biscuit cutter. Place on greased pan. Bake in hot oven (475°F.) about 12 minutes. Makes 16.

Your guarantee of Successful Baking

"I never heard such impudence in all my life. You have a lot of nerve to call yourself a lady's maid."

"I don't call myself that now, ma'am; but I was a lady's maid before I got this job."

Ken—You're a liar!

Johnny—Say that again and I'll bust your jaw!

Ken—Consider it said again.

Johnny—Consider your jaw busted.

"I despise a hypocrite."

"So do I."

"Now, take Jackson, for example, he's the biggest hypocrite on earth."

"But you appear to be his best friend."

"Oh, yes, I try to appear friendly toward him. It pays better in the end."

GREAT HELP TO CROPS

Ten earthworms in a cubic foot of earth may increase the crop output of that soil by as much as 300 per cent. By tunnelling into the ground with digested vegetable matter, the worms enrich and aerate unproductive top soils.

Cattle In Britain Killed By Poison Gas

SHELLEY, Eng.—Farmers donned gas masks to rescue their cattle from grazing fields menaced by poison gas. Thousands of poison gas bombs were stored in dumps between Shelley and Penstone by American troops during the war. They began leaking several weeks ago.

When cattle began to die from inhaling the fumes, the Denby council asked the ministry of supply to seek immediate removal of the bombs. The dump area is still marked with U.S. Army signs proclaiming: "Deadly gas. Don't be a sucker."

OUR COMPLETE SHORT STORY—

IS SUMMER A FRAUD?

By J. W. GARRETT

LAUREN curled up in the corner of the big sofa with the high back and hoped no one would find her. She had come over to the club to play ping-pong, and try to ease the pain in her heart. Of course, she hadn't really expected Cary Williams to make a rush for her front-door the minute he got home, but she had thought he would call her on the telephone. After all hadn't she written to him every day that he was overseas, and he to her? Lauren huddled lower into the depths of the sofa. Two of her friends had just entered the lobby, and she knew she was fit company for no one in her present state of mind. She had batted the ping-pong balls so hard that one of them had split; after that she had given it up.

"Where's Lauren? Anyone seen her?" The girls had come over and seated themselves on the other side of the sofa. Lauren held herself rigidly. They mustn't find her. Her face might be tear-stained. She wasn't sure that she had not been crying.

"Cary Williams is home," one of the girls said. "Guess she must be with him."

"Could be," the other replied, "but I saw her only a few minutes ago playing ping-pong."

"Oh," the first girl said. "But I know Cary's looking for her. He was in the lobby asking for her."

Lauren felt her throat tighten and her ears got warm, but her heart began to sing. She thought: "Why don't they go? I can't be caught like this. Like a fish out of water! My nose must be red!"

After what seemed interminable hours, the girls on the other side of the sofa moved away. Lauren sighed. Now, for a dash to the powder-room, and a quick repair job on her face. This was one time her make-up had to be smooth—but definitely!

Lauren didn't hurry too much. No point in having Cary see her for the first time in months looking like the scared battlefields he had just left. She combed her hair smoothly, making sure Cary's favorite curl was still true. Then she powdered her nose and made a neat outline of her mouth

with lipstick. "Smile!" she said gaily. "Life is about to begin again."

Back in the lounge Lauren cast a quick glance around it. No Cary. She shivered slightly. Were the girls right? Had Cary really come looking for her? Why had he come to the Club? Why not at her home? Then suddenly she saw him. Gay and handsome as ever. But not looking for her!

The quick surge of pride that she had felt on seeing him died suddenly. Cary was standing in the middle of a large group of people and a beautiful girl with snapping black eyes had a possessive hand on his arm. Lauren stood frozen to the spot. No one saw her. No one was even the slightest bit interested in her. She turned toward the door and slipped out of it.

Lauren walked all the way home. It was ten long blocks, but it could have been ten miles and that would have been too short. "To think that I ever dreamed... ever hoped..." She glanced at the profusion of summer flowers along the way and they looked like just so many blobs of colour. Summer was a fraud! Summer was only in the heart, and Lauren's heart was tightly encased in ice! She couldn't even feel it beat.

No one was at home. Lauren sat down on the porch swing and listened gloomily to its squeak. Something about the softness of the air and the comfort of the swing made her feel drowsy. She had walked a long way. And there was nothing to stay awake for... nothing to live for...

"Lauren!" It was an excited masculine voice that shrieked her name, and she came awake all at once. "Where have you been?" Cary demanded. "Or is this the well-known run-around I'm getting? First I come here. Your mother is so sorry, but you are at the club! Then I go there and everyone tells me the same thing—'Lauren was here. We saw her a minute ago. Please explain!' Cary was mockingly angry, but his eyes were serious. "Well?"

"Oh, Cary, I... I... was there. I saw you, but you were with a girl. You got home last night. Why didn't you call me?"

"I got home two hours ago, you goof, and I had to stop at the house." His flushed face told Lauren he hadn't tarried any longer than a decent greeting of parents allowed. "As for the girl," Cary went on, "I don't know who she was. Someone over there introduced us. But I didn't even remember her name. Guess I wasn't even listening."

Lauren's dimple came out and then suddenly disappeared. She had remembered something else. How did she look? Not very fetching to be sure after having fallen asleep in the swing. Panic appeared in her eyes, and Cary said quickly, "What is it now, Lauren? Are you ill?"

Lauren smiled. "No. Only I'd always planned on just how I would look for you the day you came home. And—look at me!" she wailed.

Cary let out a hoist of laughter. "Is that all?" he said mischievously. "Well, I'll rumple your hair up a little more and then you'll look just gorgeous to me." He came over to the swing and sat down beside her.

"Cary! Isn't it wonderful?" Lauren said softly.

"What?" moving a little closer.

"Summer! It's everywhere. Haven't you noticed?"

"I'll notice it all right," Cary said, "after I've feasted my eyes on you for awhile. Now it's your turn to move over. Girl, come a little closer."

(Copyright Wheeler Newspaper Syndicate)

WELCOME NEWS FOR GARDENERS OF FUTURE

Early gardening note: the arduous task of weeding may soon be eliminated. Dr. W. H. Lachman of Massachusetts State College told the Ontario Fruit and Vegetable Growers' Association convention at Toronto.

Oil sprays have been developed which will kill the weeds and leave the vegetables undamaged, he said. Care must be taken in using them, but with proper instruction and application the "oil weeder" are successful.

WELL PROTECTED AREA

The North Pacific ocean isn't menaced by icebergs since the narrow Bering Strait serves as a bottleneck to keep them from drifting south as they do in the Atlantic.

FOREST OUTLOOK FOR B.C. IS GOOD

VANCOUVER—The world demand for forest products from British Columbia should continue to be strong for some time—as in every other industry in Canada which must look to the export market to dispose of its production. E. P. Taylor, president of British Columbia Forest Products Limited, said here.

However, Mr. Taylor warned shareholders attending the first annual meeting of the company that future company operations must be planned to compete successfully in the world market when the present demand slackens. He forecasts strong competition from Russia, Finland and the Danubian countries.

Mongrel Dog Saves His Master's Life

TERRACE, B.C. — "Mike," a dog of uncertain pedigree, was a hero to his master, G. G. Mueller, who would likely have frozen or starved to death if it had not been for his mongrel companion.

Mueller was pinned down by the boughs of a falling tree while working in the woods, and "Mike" set to work to free him. He clawed at the snow until he had made a hole large enough for his master to crawl out.

MOTHER RECEIVES AWARD—

For aiding the French Maquis, the Croix de Guerre was presented to Mrs. Erle Smith of London, English mother of two babies. When she was parachuted into France in May, 1944, she was 24-year-old P.A.N.Y. Marguerite Knight.

SELECTED RECIPES

"PEACHY" CHOCOLATE UPSIDE DOWN CAKE

(1 egg)

- 1 cup sifted Swans Down cake flour
- 1/2 teaspoon soda
- 1/4 teaspoon salt
- 3/4 cup sugar
- 4 tablespoons butter or other shortening
- 1 egg, well beaten
- 6 tablespoons milk
- 1/2 teaspoon vanilla
- 1 square Baker's Unsweetened Chocolate, melted
- 3 tablespoons butter
- 1/2 cup sugar (*)
- 1 1/2 teaspoons grated orange rind
- 1 1/2 cups canned sliced peaches, well drained

Sift flour once, measure, add soda, salt, and sugar and sift together three times. Cream shortening. Add dry ingredients, egg, milk, and vanilla and stir until all flour is dampened. Add chocolate and blend; then beat vigorously 1 minute.

Melt 3 tablespoons butter in 8x8x2-inch pan over low flame; add sugar and orange rind and cook and stir until thoroughly mixed. On this arrange peach slices. Turn batter out on contents of pan. Bake in moderate oven (350 deg. F.) 50 minutes, or until done. Loosen cake from sides of pan with knife or spatula. Turn upside down on dish with peaches on top. Serve warm, plain or with Whipped Cream Fruit Sauce, using canned peach juice.

Note: For best results, have all ingredients at room temperature before mixing.

(*) You may substitute 1/2 cup corn syrup or honey for sugar in topping. Add to melted butter with orange rind and mix well.

Whipped Cream Fruit Sauce:
1/2 cup juice from canned fruit
1 teaspoon granulated gelatin
1/2 cup light cream
Dash of salt
Mix juice with gelatin in small bowl. Heat and stir over boiling water until gelatin is dissolved. Remove from boiling water, add cream and salt, and mix. Place in bowl of ice and water and whip 5 to 7 minutes, or until mixture begins to set around edges. Remove from ice water; stir gently until smooth. Add sugar, if needed. Serve. Makes 1 1/2 cups.

SOMETHING REALLY NEW

A Cairo house-hunter who thought he had experienced every device known to landlords for mulcting would-be tenants was taken aback when a landlady offered him an apartment on condition that he paid "dog-money", i.e. gave her \$100 for a large and repulsive mongrel which, she said, went with the flat.

The sugar production of Queensland, Australia, is a \$32,000,000-a-year industry. 2710

REPORT PROGRESS ON NEW POULTRY BREDS

Further progress is reported on the work of the Poultry Division, Experimental Farms Service, in the creation of new breeds of poultry to meet specific economic requirements. Chief of the breeds in the process of being evolved is what has been called the Large White, a breed possessing: (a) white feathers for ease in breeding to a uniform or standard feather colour requirement under commercial conditions; (b) white flesh so that the bird may attain "milk-fed" grading in so far as skin colour is concerned; (c) fast feathering for ease in plucking and to speed up the moult; and (d) white eggs for uniformity in marketing.

With regard to the attainment of this desirable breed, the latest annual report of the Dominion Minister of Agriculture states that the Large White, which has been in the process of synthesis for the past eight years, now has reached the stage in its development at which more attention can be given to body type and shell colour. So far the work has been mainly limited to the task of establishing purity for skin and feather colour.

The other two breeds of chickens now being developed at the Central Experimental Farm, Ottawa, the Broad Breasted White and the Small White have progressed still further toward the ideal envisaged for them. The Broad Breasted White is to develop largely into a meat type bird, possessing, however, good egg laying characteristics. The Small White will combine high egg production, standard egg size, and good body type, about a pound less in weight than that of the Leghorn breed.

MORE ELECTRICAL POWER STATIONS FOR BRITAIN

A four-year plan to provide Britain with at least 20 new electrical generating stations was outlined in a recent statement by the Central Electricity Board. The scheme also provides for improvements and extensions of existing stations—the expenditure is estimated at over \$800,000,000. Plants at present producing power for the national grid provide about 9,000,000 kilowatts, and it is anticipated these new developments will add another 6,000,000 kilowatts.

AT HIGH ALTITUDES

Nine-tenths of Bolivia is made up of rich tropical valleys, yet more than half of its 150 largest cities are located at cold, bleak altitudes about 11,000 feet, with many as high as 12,000 to 13,000 feet.

A 1792 model of Dr. Guillotine's stylish, high speed and efficient decapitating machine is on sale in Paris for 100,000 francs (\$510).

It was discovered in the courtyard of an ancient building on the Rue Ste. Anne, and the concierge explained that it was used in 1792 at Nantes to discourage a rebellion of royalists.

In spite of its age, the guillotine has a nice shiny weighted blade, able to sever the thickest, toughest neck, and children sharpen their pencils on it until the concierge shoos them away.

The owner, M. Faure, keeps a toy store on the boulevard and in his absence his secretary refused to divulge any information about how the toy dealer acquired the macabre relic.

Could Apply To Canada As Well

The "good life" of the big cities has obvious attractions, but there is evidence too that some city-dwellers, would exchange their way of life for country living if they could be assured of jobs and homes. Projects aimed directly at rural rehabilitation, like afforestation, hydro-electric schemes, and the revival of local industries, will be salutary, but probably equally useful will be, paradoxically enough, the building of new, small towns which will serve the needs of country districts and satisfy social and cultural longings without at the same time becoming the insidious attraction of the big cities. Glasgow Herald.

School Board Probes Strapping Of Boy

TYNDALL, Man.—Charges that a 12-year-old school boy received 104 lashes with a strap were heard by the school board and teaching staff here.

It was claimed a teacher, Anne Christianson, whipped the strap. She told the meeting 60 or 70 lashes

"would be nearer the number." Peter Prychum, assistant principal of the school, said no court action would be taken as the School Act places no limit on use of the strap providing no physical injury results.

The board passed a resolution that any misdemeanor requiring more than two lashes on each hand, be referred to the principal or assistant principal.

Tyndall is about 20 miles northeast of Winnipeg.

Salt and other minerals continually are washed into the sea at an estimated rate of three billion tons a year.

VOTE !!

The townspeople will go to the polls on Monday next for the purpose of choosing two councilmen and two school board members. It will be no easy task to choose the right man for the job, and no man can be expected to fill the position and make everybody happy.

No less than six men are running for the position of town councilman this year. The choice is yours and you are urged to exercise your right as a Canadian Citizen to go to the polls and by secret ballot vote for the man you think would best fill the position.

Six members of your community have indicated their willingness to serve you on the town council should you feel fit to elect them. Three men have indicated their desire to act for you on the school board and administer the affairs of the board on your behalf. The men elected are acting for you, they are put the by your votes. They are your men. They are YOU. Because we all cannot sit on the Council or School Board the provisions are to have representatives to sit for the people. Those representatives are elected by the people. It is YOUR DUTY to go to the polls and cast your ballot. No matter how you vote, VOTE.

Its renaissance or decadence for the world today.

Strain is often the absence of trust.

Much is heard on the radio every Sunday, about the "City of the Dead", but we believe that, to judge from the cemetery-like quietness of pre-election time to date, Raymond earns that title for herself.

HERE & THERE

BRITAIN'S TROUBLES

Nearly two years ago the British people elected a labor Government with the idea that the working man and his labor unions would get a square deal. They were anxious to try out labor theories which included nationalization of the mines and railroads. Few Britons realized what war had done to them, nor did they know the cost of restoring the economy.

Slowly, the British people have realized that they face years of hard work and sparse food if they are going to restore their economic position in the world.

They have borrowed from the United States and Canada which can only bring a temporary easing of the situation.

What are they going to do? Work more and eat less. The British probably feel that they did this during the war and find it unthinkable that they must continue this way of life for years.

The Labour Government keeps telling the people that there is only one way out—more and more sacrifice. More production.

But how is there to be more production when the labour unions

CUT THIS OUT FOR FUTURE REFERENCE.

who put the Government in office are demanding more pay and less hours of work—with sufficient goods on which to spend their increased pay.

This picture is an impossible one for the Government. They cannot boost production and at the same time give workers shorter hours and more pay.

Truck drivers of London were given a shorter week plus longer vacation with pay. What will the Government do when other unions make similar demands.

The gloomy side of the picture

must not be overdrawn. There are hopeful signs for Britain's future. One of the most encouraging is the new Education Act which has discarded old ideas and demands a High School education for every boy and girl.

It was the impact of Canadian and American troops upon the Island that made them see the advantages of universal education. The new act will allow young people to work but give them a chance to get their high school education in the evenings.

Another fact which the axis nations forgot was that do or die feeling of the British people. They will not give up when the going gets tough. Once they realize there is no other way to get their prosperity but to work and export they will do so—with grumbling of course.

They are passing through the aftermath of war, new theories are being tried out. It will take years before their success or failure is known but there is one principle that can always work in a democracy—if they do not like their present government they can change it.

Scarcity of Education?

Topsy-turvy Well we may be inclined to agree with you. Even those who thought that they were past being surprised at any R.H.S. fads, winced before the present one. When the boys walked in with their heads shaved and beards growing—, it caused quite a commotion. We are only afraid that the boys will catch pneumonia.

You might have heard anything from Schubert's "Unfinished Symphony" to the latest Boogie-Woogie as you passed the High School. We of the music and PT classes thank Mr. Gibb and his music classes of 1945-46 for the new radio phonograph. It is a contribution that was well worth the work of the students. Since the school was insulated with rock wool the classes have been much more comfortable. The temperature of the new wing occasionally reaches 68 degrees F. When the weather outside is about -35 even school is a warm haven by comparison.

Though other things may come and go, school goes on forever.

The man in the street has no difficulty in understanding why there is a scarcity of bacon, beef, cement and lumber, but an explanation of the scarcity of education today in Alberta is not such an easy matter.

Six years of war depleted enormously the farm stock of Europe, so meat and animal products throughout the world are in very great demand. Millions of homes were destroyed by war, and millions more remained unbuild during the war, so building materials are hard to get.

But the educational crisis in Alberta is quite different from this. There are more students enrolled in the schools than there were ten years ago. There are as many school buildings as there ever were. There is more money in circulation and fewer things to spend it on than ever before in peace time. The set-up should be perfect for PLENTY OF EDUCATION FOR EVERYBODY. And yet, more than 15,000 of our children are condemned to mail-box education, and some thousands more get none at all.

This looks like a man made crisis in education which a wise administration could clean up if it really believed that good schools and good teachers should be the first call upon the provinces resources.

The hit musical of 1947 is on its way—"Time, Place and the Girl."

BRING IN YOUR CAR OR TRUCK NOW!

WE'LL FIX IT... RIGHT, and at REASONABLE COST

You'll get much better performance, greater economy and longer life out of a car or truck serviced by our trained mechanics, using factory-engineered parts.

See Us NOW—to PREVENT Trouble, Too!

Canada's Export Trade Rising To New Records

OTTAWA.—Canada's export trade, which fell off sharply after the war with discontinuance of munitions shipments and lack of shipping, is rolling up new peacetime records, Trade Minister MacKinnon announced.

During 1946, the minister announced, the Dominion's exports rose to a total value of \$2,312,000,000, or more than 2½ times as great as the five-year pre-war average from 1935-39. "It is encouraging to note that despite the elimination of these war goods from our export trade," Mr. MacKinnon said, "the volume of peacetime commodities has been maintained at a high enough level to ensure full employment in Canada's great but vulnerable export industries."

The two principal groups on the receiving end of Canadian shipments last year were the United States and the United Kingdom, Canada's best trading customers ever since confederation. Exports to the United States were valued at \$888,000,000, half of which represented Canadian forestry products with newsprint the largest single item. Agricultural products and base metals made up much of the remainder.

To the United Kingdom during 1946 Canada exported goods valued at \$507,000,000, financed in part from proceeds of the Canadian loan. Food products represented two-thirds of these exports.

Top export items were newsprint valued at \$265,000,000; wheat, \$250,300,000; wheat flour, \$126,700,000; planks and boards, \$125,400,000; woodpulp, \$114,000,000; fish, \$86,500,000; automobiles, trucks and parts, \$78,300,000; bacon and ham, \$66,400,000; aluminum, \$56,000,000; and nickel, \$55,200,000.

ALLIES BAN NEWS OF NAZI LEADERS

NUERNBERG.—The allies have determined to wash the names of Hitler's leaders out of print and their deeds out of mind so they never can contribute to new German legends, it has been learned.

This policy has been adopted by the allied control council in Berlin for Nazi leaders generally and specifically for the seven Nazis who were convicted with Hermann Goering, Joachim Von Ribbentrop and others but were given only jail terms.

They are Admirals Eric Raeder, life imprisonment, and Karl Doenitz, 10 years; Walter Funk, banker, life; diplomat Constantin Von Neurath, 15 years; munitions maker Albert Speer, 20 years; youth leader Baldur Von Schirach, 20 years; and deputy Fuehrer Rudolf Hess, life.

The order is that no news of any of the seven ever is to be divulged—that all their actions and comments are to be secret. The secrecy was believed advocated by the Soviet spokesman in Berlin since the Russians have long felt the best way for the people to forget any individual is by silence.

The Russians never have disclosed what they found in Hitler's Berlin bunker, or whether they ever had the body. They never have said Hitler was dead.

BRITAIN FROWNS ON SUNDAY SOCCER

LONDON.—The possibility of Sunday football in Britain is about as bright as Sabbath horse racing in Canada. The Football association, ruling body of the sport, not only frowns upon Sunday soccer, it refuses to discuss it.

Some relaxation was allowed during the war because men in the services often could play only on Sundays. Long hours in industry had the same effect and Sunday sport became respectable.

With the end of the war, the F.A. returned to normal. Any player found playing Sunday football is liable to be banned for life from competition under F.A. jurisdiction.

LONDON AUTHORITIES HAVE NEW PROBLEM

LONDON.—Desperate Londoners—driven by the housing shortage to buying surplus invasion craft and converting them into homes on the Thames—now face tightening government regulations for their "floating homes". London authorities are gravely concerned over the lack of ventilation and sanitation in some of the converted landing craft and torpedo boats. As a result legislation regulating living conditions in houseboats is to be introduced in the near future.

HEADS COMMITTEE

LAKE SUCCESS, N.Y.—Mrs. Franklin D. Roosevelt was elected chairman of the United Nations human rights commission as it began a long task looking toward establishment of machinery to safeguard fundamental freedoms throughout the world.

10-1 LEAD FOR HIS PARTY—Returns from Poland's first post-war election gave a 10-1 lead for the Communist-dominated government party under Premier Morawski (above). Announcement of the final results will be made Jan. 31. Polling was reported orderly, and returns heavy. Stanislaw Mikolajczyk, leader of the Polish Peasant party, announced he would contest the election on the grounds that it was not "free and unfettered".

Call Conference To Stabilize Wheat Prices

WASHINGTON.—The international wheat council called a conference to draft an agreement stabilizing wheat prices and supplies and dividing the world market. It will be held in London beginning March 6.

The council is an agency composed of major wheat producing and importing countries. It was created before the war in a move to deal with chronic surpluses which plagued producers in such major exporting countries as the United States, Canada, Argentina and Australia.

A tentative agreement was drafted at that time, but it was abandoned when the war eliminated the surplus problem.

An inter-government agreement to deal with surpluses of wheat and other farm products was recommended recently by the United Nations preparatory commission on proposals for improving world nutrition and stabilizing farm income.

The London meeting is expected to consider the commission's proposal that future international commodity agreements provide for disposing of surpluses to undernourished areas at cut-rate prices.

The United States, Canada and Australia have expressed interest in such a program. In its report the commission said these countries can produce wheat efficiently and in large quantities and dislike the idea of restricting future production.

The commission also recommended that wheat and other commodity agreements provide for special famine stockpiles and other reserves. Buying for and selling from them would be used to stabilize prices at levels considered fair to consumers and producers alike.

The London conference also is expected to consider other commission recommendations that a wheat agreement provide maximum and minimum prices in world export markets and that such an agreement be made for a five-year period with provision for extension.

Members of the wheat council include Canada, the United Kingdom, Argentina, Australia, Belgium, Brazil, China, Denmark, France, India, Italy, the Netherlands and the United States.

OTTAWA.—Trade Minister MacKinnon welcomed the announcement from Washington that the international wheat council had called a conference in London and said the Canadian government had been advocating such a step since the end of the war.

For the last year and a half, he said in a statement, the international wheat council had been "developing a sufficient consensus among the principal wheat exporting and importing countries to warrant the calling of an international conference on wheat with reasonable prospects for its success," he said.

SHORTAGE OF TEACHERS

EDMONTON.—Canada has a shortage of approximately 7,000 qualified teachers, Dr. C. E. Phillips of Toronto, executive secretary of the Canadian education association, said in an interview here. Dr. Phillips said surveys of teacher-training institutions conducted in recent weeks indicate that the shortage will be about 8,000 in three years.

SAW LINCOLN

GETTYSBURG, Pa.—Mrs. Amanda Homan, 102, who saw Abraham Lincoln as he rode on a horse to the Gettysburg battlefield to deliver his famous Civil War speech, died at her home near here.

The maximum length of the Amazon River is given as 4,000 miles, and with its tributaries, is said to possess 30,000 miles of navigable waterways.

United States Withdraws Marines From China's Civil War Area

—Eases U.S.-Soviet Tension

WASHINGTON.—Secretary of State George C. Marshall abandoned hope of peacefully mediating China's civil war and gave the signal to yank all U.S. marines from the war-torn country.

His decision has the immediate effect of letting both Chiang Kai-Shek's Nationalist government and the Chinese Communists "stew in their own juice."

His long-range strategy is that withdrawal of all American "good offices" may cause both sides to recede from their uncompromising attitudes.

Immediate effect of the move will be:

1. "Return home orders" for an

estimated 10,000 marines and about 2,000 U.S. army officers at the executive headquarters which was established by Marshall to maintain the truce he negotiated a year ago.

2. Possible resignation of Ambassador J. Leighton Stuart, who was selected earlier this year because of his many years in the Orient and his long experience as a mediator with Chinese factions.

Recall of the marines will ease increasing tension between the United States and Soviet Russia in that area. Soviet propagandists and officials for months have denounced the presence of the U.S. leathernecks. Russia withdrew her troops from Manchuria last spring.

CANADA TO REVISE RULES ON SECURITIES

OTTAWA.—The foreign exchange control board has taken further steps to prevent the flow of U.S. dollar resources out of Canada and back into the United States.

The board announced that it had revised the rules governing trading on outside security markets of Canadian securities payable in United States funds. The ruling affects securities which mature or have their earliest call date within three years.

Effective immediately, the board said, permits will be granted to residents of Canada for the sale of such securities on outside markets only if the U.S. funds resulting from the sale are sold to a bank in Canada, or simultaneously reinvested in other Canadian foreign security of equal short maturity. Up to the present it has been permissible to reinvest the proceeds from such sales in United States securities.

FENCE-JUMPING OF CHINESE GENERAL

NANKING.—It could happen only in China.

Gen. Ho Peng-Chu, who has been commanding 50,000 Chinese Communist troops in their battles against government forces along the critical Kiangsu-Shantung border, decided it wasn't a satisfactory way of life—so now he is commanding a government army instead. Same troops, too.

The official central news agency reported the switch with high supporting detail. General Ho's latest fence-jumping is his fourth such swap, the government agency related.

During the war, the former Nationalist government militarist became commander of Chinese puppet (anti-government, pro-Japanese) troops in the Hsuehchow-Haichow area. After Japan's surrender, he reappeared, beaming, as a government army officer.

ZARUBIN NEW RUSSIAN AMBASSADOR TO BRITAIN—Soviet ambassador at Ottawa during spy probe, Georgi Nikolayevich Zarubin was cleared of any connection with spying. New ambassador to London, Zarubin, arriving with wife and son, will first deal with complaint by British foreign office against Pravda.

Cubans Demonstrate Against Franco, Urge Break With Spain

Already agitated over the high cost of living, Cubans staged a two-hour work stoppage in Havana and demonstrated in front of the palace of President Grau San Martin, as shown here. They are angry with Spain's Franco. They threw rotten eggs at a Spanish film and urged a break with Franco when a Cuban was executed in Spain.

British Plan—

Import Grains To Produce Own Dairy Products

LONDON.—A cryptic remark made by Food Minister Strachey, that "we hope to be able to import the right things for feeding pigs and poultry later," refers to the big prospective imports of feed grain. They will be by far the biggest since the outbreak of the war.

Strachey made the remark at a press conference in which he discussed phases of Britain's food problems.

His reference to "later" means that a large part of the feed grain imports may not arrive until the fall. But the shipments should start increasing soon. It is authoritatively indicated here that the total quantity, when it can be announced, will be found gratifying.

This is a good omen for future supplies of beer and whiskey. It is also good news for Denmark and the many other European countries which require feed grain imports.

It is understood Britain's purchase of 500,000 tons of Argentine wheat is definite. "Details" now being arranged, are believed to be concerned with enlarging the contract by a still greater quantity of feed grain.

If the Argentine wheat, when it arrives, enables the flour extraction rate to be reduced, it would release valuable mill feeds (wheat offals) for livestock. It would also mean whiter bread.

Feed grains, particularly corn, are also likely to be an important feature of the March-June grain export allocations from the United States, which are shortly to be announced. The United States has far more of them than she can use.

Feed grains from both North America and Argentina are dear, though not nearly so dear as wheat. But it is cheaper to import feed grains at almost any price than to import the meat, dairy products and eggs which they produce. Britain's shortage of hard currency thus works in favor of buying more grains as soon as they can be bought.

PLANE FOR QUEEN SAFEST IN WORLD

WISLEY, Surrey, Eng.—The air ministry has taken the wraps off what was planned as the world's safest aircraft—a twin-engine Viking which will be used to carry the queen during the royal family's South African tour.

The plane is fitted with almost every air safety device known to the British aircraft industry. Of 3,500 horsepower, it is one of four in "the king's flight."

Four types of radar equipment for position fixing; beam approach and glide path communication; a radio compass and radio altimeter plus five channels of wireless communication; seat parachutes for every passenger; crash-proof fuel tanks reducing the fire risk in the event of a forced landing; specially strengthened crash-proof armchairs in the royal saloons; blow-out dinghies fitted in the engine nacelles along with automatic fire extinguishers.

Each plane has a pantry capable of turning out complete meals if necessary.

DENMARK NOT SELLING GREENLAND

COPENHAGEN.—Danish Foreign Minister Gustav Rasmussen told the newspaper Politiken that "it is an absurd idea that Denmark should be considering selling Greenland to the United States."

"I have not participated in Danish-American talks to that effect mentioned by (the newspaper) Ekstra-Bladet," he said.

Meanwhile, Christmas Moller, former foreign minister, and other prominent political leaders, told the Conservative Nationaltidende that the Danish people would not agree to selling Greenland.

In Washington, state department officials said no negotiations for the purchase of Greenland have been held, and no purchase proposals made.

U.S. PASSES MEASURE TO KEEP LUXURY TAX

WASHINGTON.—The house of representatives passed a measure to keep taxes on liquor, jewelry, furs, cosmetics and other specially-taxed items at their wartime levels.

The roll call vote was announced as 373 for and 35 against.

The action came as the first major decision on legislation since the Republicans gained control of congress.

TO MOVE FROM PALESTINE

LONDON.—Colonial Secretary Jones told the commons British women and children might be removed from Palestine to protect them from extremist violence. A concentration of British civilian personnel also is "under active consideration," the colonial secretary announced. 2710
